

Himanshu Chauhan

📞 7217550949 — ✉️ Adityachauhan5566@gmail.com — 🔗 LinkedIn — 🐙 GitHub

Professional Summary — Experienced Frontend Developer with 2+ years of expertise in React, Next.js, TypeScript, and modern web technologies. Proven track record of building scalable applications, implementing enterprise solutions, and delivering high-performance user interfaces. Strong background in full-stack development and DevOps practices.

Technical Skills

Languages Java, Python, JavaScript, TypeScript **Backend** Spring Boot, FastAPI, RESTful APIs, GraphQL
Frontend Next.js, Redux Toolkit, Material-UI, Tailwind CSS **Databases** PostgreSQL, MySQL, MongoDB, Prisma ORM

Professional Experience

AiStrike (Engineer 1-UI) **Feb 2025 – Present**

- Spearheaded AI platform features including real-time markdown streaming chat interface and collaborative editing capabilities, serving 1000+ enterprise users
- Built enterprise connectors for Slack, Azure, JIRA, ServiceNow, Sumologic, and GCP, reducing integration time by 40%
- Designed RBAC and multi-tenant MSSP architecture, ensuring secure access management for enterprise clients
- Created core UI modules (Templates, QueryBuilder, Logs) that increased operational efficiency by 35%.
- Led UI/UX improvements with redesigned dashboard and settings panel, resulting in 25% improvement in user engagement
- Integrated enterprise SSO solutions (Azure AD, Okta, Keycloak), supporting 500+ concurrent users

Vcariate (Software Development Engineer I) **Sep 2024 – Feb 2025**

- Developed a Task Management application (Electron, React.js, GraphQL) that supports 200+ daily active users.
- Built Ticket Management System with interactive graph visualizations using D3.js for 1000+ tasks and tickets
- Engineered reusable component library and optimized API communication, reducing API calls by 30% and improving performance by 25%
- Collaborated with product and backend teams to refine data schema, resulting in 40% faster page load times

Vcariate (Software Development Engineer Intern) **July 2023 – March 2024**

- Developed a comprehensive management system that cut manual restaurant processes by 45%.
- Managed inventory for restaurant and warehouse operations, minimizing waste by 20% through automated tracking
- Implemented employee management system including scheduling and performance tracking for 50+ staff members
- Enhanced cloud security and compliance using Python FastAPI and ARN capabilities for secure credential sharing.

TGH Tech (Frontend Developer Intern) **May 2023 – Sep 2023**

- Developed an admin dashboard for e-commerce, managing 500+ products and 100+ daily orders.
- Contributed to company website design and development, resulting in 15% increase in user engagement
- Implemented real-time chat functionality on Social Town platform for 1000+ active users
- Collaborated with cross-functional teams maintaining 95% project delivery success rate

Education & Certifications

Bachelor of Technology in Computer Science **2024**

Uttarakhand Technical University

Certifications

- Web Development - React.js, TypeScript, Redux Toolkit

Key Projects

RAG Application with LLM Integration **Jun 2024 – Sep 2024**

GitHub Repository

- Developed comprehensive RAG application using Next.js, FastAPI, Cohere API, and AWS S3 for data storage and retrieval
- Implemented LLM capabilities for natural language understanding, processing 10,000+ documents
- Built scalable backend infrastructure using FastAPI with microservices architecture, supporting 500+ concurrent users
- Integrated vector database for semantic search, achieving 90% accuracy in query responses
